Reissue Formal Matters

This application has several formal matters which need to be resolved before the application can be processed for allowance.

First, the application fails to provide a proper chain of title to comply with 37 CFR 3.73(b) since there is no listing of assignees. Rather, the chain of title only provides reel/frame numbers.

Next, the changes made to US Patent No. 5,431,648 by Certificate of Correction need to be incorporated into the instant specification.

Finally, the preliminary amendment filed August 6, 2001 does not comply with 37 CFR 1.173(b) since the additions to the specification are not underlined, and the amendment filed February 8, 2005 does not comply since claim 1 should be canceled by statement and not by bracketing. Further, claims 2-13 should remain numbered 80-91 since claims 2-79 were canceled.

Applicant is reminded of the continuing obligation under 37 CFR 1.178(b), to timely apprise the Office of any prior or concurrent proceeding in which Patent No. 5,431,648 is or was involved. These proceedings would include interferences, reissues, reexaminations, and litigation.

Applicant is further reminded of the continuing obligation under 37 CFR 1.56, to timely apprise the Office of any information which is material to patentability of the claims under consideration in this reissue application.

These obligations rest with each individual associated with the filing and prosecution of this application for reissue. See also MPEP §§ 1404, 1442.01 and 1442.04.

The reissue oath/declaration filed July 11, 2005 is defective (see 37 CFR 1.175 and MPEP § 1414) because of the following: the declaration has non-initialed changes. See MPEP 605.04(a).

Claims 2-13 are rejected as being based upon a defective reissue oath/declaration under 35 U.S.C. 251 as set forth above. See 37 CFR 1.175.

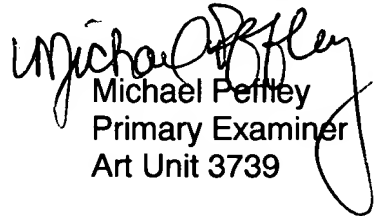

The nature of the defect(s) in the oath/declaration is set forth in the discussion above in this Office action.
